A Note from Shelly Jorgenson (Owner):

When my daughters and I started raising and breeding Holland Lops, it was an instant passion for all of us and brought us together in so many ways. Our love for bunnies makes us smile every day! We have met a lot of wonderful people at local and national rabbit shows and are always excited to see them again at the next show!

As a result of having a barn full of bunnies and all of the things we have learned in the last years through triumph and some despair, we decided that we could take our love of bunnies one step further! It was only the next conclusion that we could supply other breeders, like ourselves, and pet owners, with quality products that have been instrumental to us in our barn and development of our rabbitry.

All Things Bunnies has become so successful that we no longer breed rabbits. That success is due to our wonderful customers! We genuinely appreciate your business and shared passion. We love talking about bunnies with our customers every day!

We hope you will enjoy our catalog and website as much as we do! If there are items that we don't carry, that you would like to see on our website, please feel free to drop us an email with details. We greatly appreciate new ideas! We will endeavor to find that item and make it available to all.

We thank you so very much for viewing our catalog and visiting our website! Many thanks to all of our social media followers for the photos provided throughout this catalog!

All Things Bunnies Carrier/Transport Cages are manufactured using 1" x 1" galvanized (GAW) or vinyl coat wire mesh with 1/2" x 1" galvanized or vinyl coat floors. We use sturdy plastic dividers, which weigh less than metal. We take the time to grind all of the wire edges so they aren't sharp. Our carriers are light and durable! Flip lid for easy access. All Things Bunnies Small Animal Vet Kit

All Things Bunnies has created this kit for breeders that have a ton of working medical knowledge about their rabbits, but don't happen to be a veterinarian! As it is for livestock, many people have learned, over the years, how to care for their herd themselves with a veterinarian's assistance. It is not cost effective to have a herd of rabbits and face going to the vet if one or more of them become ill.

This kit can prepare you for repair of minor injuries, injections of medicines and vaccines, and most of all, the ability to give subcutaneous hydrating fluids to your sick rabbit.

Here is what the kit includes:

- 12 - 1CC syringes without needle
- 12 - 1CC syringes with 28ga x 1/2" needle
- 12 - 3CC syringes without needle
- 12 - 3CC Luer Lock syringes with 23ga x 1 1/2" needle

Care Labs "Zaps It" - 1 QT

ZAPS-IT™ is a powerful odor digester and organic stain remover. ZAPS-IT™ dissolves and digests waste residues, stains and malodors caused by urine, feces, vomit, blood, food wastes and other organic matter. The bacteria then convert the absorbed organics into carbon dioxide and water which quickly dissipate.
